

The objective that LISANPLAST S.L assumes with respect to quality, is the continuous increase of the competitiveness of its own clients.

LISANPLAST S.L, produces profiles and tubes of small diameters with high precision, extruded and coextruded in plastic materials for applications of high demands and innovation for very diverse sectors.

The management of the company assigns the appropriate level of means and resources to comply with this quality policy in order to obtain the following results:

- * Customer satisfaction based on the products and services supplied being carried out in accordance with the established requirements.
- * High motivation of all staff, providing them with the necessary information and training.
- * Adequate profitability of business management to ensure development and improvement objectives.
- * Quality as a key factor in continuous improvement.

To achieve this, the Management undertakes to:

- * Meet customer requirements and legal and regulatory requirements associated with the products.
- * Continuously improve the effectiveness of the quality management system.
- * Establish close contact with customers and suppliers to optimize process efficiency and improve products.

This quality policy will be reviewed in order to adapt it to the changing situation of the environment and the company.
